## 12. CHURCH MUSIC

Each category (Upper Voices, Men's Voices, Full Choir) is divided into Services and Anthems. Under each composer Latin titles (Masses and Motets) come first. For the scoring, lower case indicates soli, upper case full choir.

Where the organ part is of a continuo nature, the indication Organ Cont. is used.

Square brackets enclose an optional element. 'Responses' implies Preces / Versicles and Responses for Matins and Evensong. Copies are B5 size, unless otherwise stated.

N.B. Seasonal suggestions do not preclude more general use.

*We are trying to ensure that Stanford's service music remains in print. Of the five main services, where movements are still in print from the original publishers, this is indicated in the table below. In his Communion Services, Stanford did not set Benedictus or Agnus Dei. Since these are now universally used, Cathedral Music has provided copies that include the individual Benedictus and Agnus Dei settings in F and B flat that he wrote subsequently. All services are SATB in sides with divisions.*
