STANFORD, Charles Villiers (1852-1924)

We are trying to ensure that Stanford's service music remains in print. Of the five main services, where movements are still in print from the original publishers, this is indicated in the table below. In his Communion Services, Stanford did not set Benedictus or Agnus Dei. Since these are now universally used, Cathedral Music has provided copies that include the individual Benedictus and Agnus Dei settings in F and B flat that he wrote subsequently. All services are SATB in sides with divisions.
